Job responsibilities:

- Streamlined batch schedules and student progress tracking by collaborating with tech team to implement automation solutions.
- Uploaded, organized, and managed educational content, ensuring its accessibility and consistency for user engagement.
- Coordinated with stakeholders to ensure efficient operations, fostering collaboration and communication to achieve common goals.

Think & Learn Pvt. Ltd. (Byju's)

Operations Associate | February 2022 - October 2022

Job responsibilities:

- Analyzed call quality and provided feedback to ensure compliance, showcasing strong attention to detail and problem-solving skills.
- Provided continuous improvement feedback, enhancing team workflows and contributing to overall excellence.
- Engaged actively in analyzing performance data, aligning with software development principles and best practices.

PROJECTS

1. Asos Clone | |

JavaScript | React | Git | HTML5 | CSS3 | RESTful APIs | Redux

- Developed an ASOS-inspired shopping app using React.js and JavaScript, ensuring efficient cart and favorite management with React Context.
- Implemented CRUD operations for food cart and orders, enabling dynamic updates to enhance user interaction.
- Designed an intuitive user interface and integrated APIs, ensuring seamless navigation experience with React Router.

2. KFC Clone | |

JavaScript | React | Git | HTML5 | CSS3 | Node.js | Express.js | MongoDB | RESTful APIs

- Developed a dynamic, responsive KFC-style food delivery app leveraging the MERN stack, ensuring smooth user experience.
- Implemented JWT-based authentication for secure user/admin registration, enhancing application security standards.
- Designed and developed efficient server-side APIs with Node.js and Express.js, facilitating seamless CRUD operations.
